VISION, MISSION & VALUES

Bridge Vision

To be the corporate insurance broker of choice, valued for our technical excellence, high quality of Client service, professionalism and commercial awareness.

Bridge Mission

To protect and enhance our Clients' interests through our professionalism, quality, integrity and innovation.

Bridge Values

Bridge is more than just an insurance placing organisation. Through offering professional advice, technical excellence, high quality service and commercial awareness, we look to contribute to the success, profitability and post-loss business continuity of our Clients.

Bridge is very highly regarded among local and national professional and business circles. We have an enviable reputation for technical excellence which sets us apart from our competitors.

Our Clients value the high quality of our service and as a result many have long term relationships with us - we really value this commitment.

Leisure	Risk Management
Manufacturing	Technology

Services

You should be looking for a broker who has a deep understanding of how your industry sector operates. That way you can be confident that you are receiving the most appropriate service possible.

At Bridge, we have a broad spectrum of expertise that we would love to share with you. By drawing on our vast experience and applying our in-depth knowledge of these sectors we are able to design innovative insurance programmes for each of our Clients - many of whom have been with us since the early years.

Claims Handling Expertise

The effective management and defence of claims is a key concern for our Clients. At Bridge we are one of the few brokers that have retained a specialist in house claims team to support our Clients' needs. Our Claims Executives have a wealth of experience in negotiating claims and providing advice in such areas as motor fleet, employers and public liability, litigation defence, major losses, property and complex business interruption.

Our Clients have at least one dedicated Claims Executive which helps ensure the high level of personal and tailored service in which we have so much pride.

Due Diligence Style Audit

We are able to introduce a more innovative approach through our 'due diligence style' audit, where we deliver an independent report which focuses on taking risk and cost out of the business.

We feel that this offers greater value and a completely independent view of the risks within a business, how to mitigate these risks as well as competitively managing future insurance costs. The due diligence exercise is conducted away from your renewal date and is the most effective way of driving financial value without disturbing existing arrangements or the insurance market in general.

We are able to take the experience from our expertise within the private equity and financial markets, where we work with a number of providers looking at risks within their investee companies in a more innovative and constructive way, offering a **unique proposition** within the insurance market.

Global Reach

Bridge is the UK representative of worldwide independent broker partnership, Brokers Link - which is a testament to the high level of service we offer Clients.

Brokers Link brings together a group of independent and reputable insurance and reinsurance brokers. Strong relationships have been established between the carefully selected partners, ensuring that you will be provided not only with the most suitable solutions, but also with an effective way to manage your insurance portfolio, without losing personalised, local service.
